

# Nedgroup Investments Bravata Worldwide Flexible Fund

Class A

March 2019

## ASSET ALLOCATION RANGE

### RISK RATING

### Risk reward profile

Equity and property investments are volatile by nature and subject to potential capital loss. For credit and income instruments, while unlikely, capital loss may also occur due to an event like the default of an issuer. The portfolio may be subject to currency fluctuations due to its international exposure.

<sup>1</sup> The annualized total return is the average return earned by an investment each year over a given time period. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Due to the delayed release of inflation data, relevant benchmarks will lag by one month.

<sup>2</sup> Total Expense Ratio (TER), expressed as a percentage of the Fund, relates to expenses incurred in the administration of the Fund. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Inclusive in the TER of the fund, a performance fee of 0.21% of the net asset value of the Fund was recovered. Transaction Costs (TC), expressed as a percentage of the Fund, relate to the costs incurred in buying and selling the underlying assets of the Fund. TC are a necessary cost in administering the fund and impact fund returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund, relates to all investment costs of the Fund. Both the TER and TC of the Fund are calculated on an annualised basis, beginning 01/01/2016 and ending 31/12/2018.

## Portfolio attributes

- This fund invests anywhere in the world utilising a wide array of asset classes.
- The long-term focus is on capital growth, but preserving capital in the short-term is a key driver of investment decisions.
- The fund has a demonstrated flexibility with equity allocation ranged between 45% and 90%.
- The fund is constructed without reference to any benchmark. This means that asset allocation and security selection are conducted independently of traditional market cap indices.
- The fund has a strong value bias by only investing in businesses trading at a discount to their intrinsic value.

## Investment manager

- Aylett & Co. is an Independent, owner-managed, boutique asset manager founded in 2005.
- Aylett & Co. is focused purely on fund management with a focused range of strategies and has fund management experience through various market cycles.
- The company has displayed good downside protection in volatile markets.
- Aylett & Co. manage funds in a rational, well informed and independent manner.

## Investment philosophy

- The Aylett & Co. investment team spends time traveling to generate ideas and to build an understanding of the regions they invest in.
- They focus on selecting good businesses first, with particular attention on sustainable cash flow generation.
- They will only invest in businesses with a high probability of being successful investments, so a market mispricing relative to intrinsic valuation is also required.
- Decisions are implemented upon conviction of the portfolio management team.
- The fund is constantly reviewed and is altered only as relevant information changes prior assumptions.
